(See Rule 16)

Draft Agreement between the Command Area Development
Board and the Co-operative Water Distribution Society

This Agreement is made at on this
..... day of in the year one
thousand nine hundred and ninety eight between the Command Area
Development Board, a body constituted under the Goa Command Area
Development Act, 1997 (Act 27 of 1997), having its Office at
..... and represented in this Act by
Shri by virtue of
dated (hereinafter called the 'Board') (which expression shall

unless repugnant to the context or meaning thereof be deemed to include
its successors in office and permitted assigns) of the one part and the
..... Society, a society, registered
under the under Registration No.
..... having its Registered Office at
..... and represented in this Act by its
Chairman Shri having been duly
authorised in this behalf by virtue of dated
(hereinafter called the "Society" which expression shall, unless
repugnant to the context or meaning thereof, include its successors-in-
office and permitted assigns) of the other Part.

Whereas, the Command Area falling under Minor/Water Course
No. in villages of
..... Irrigation Project (hereinafter called
as the "Command Area"), is assigned to the Society for Irrigation
management for a period under this Agreement (command area map is
attached);

And whereas the ownership of Minor/Water Course No.
..... alongwith On Farm Development structures and land
acquired for the water delivery systems and all works executed
through the Board funds will remain with the Board;

And whereas to achieve the above objectives, terms and conditions
as specified hereunder have been mutually agreed to by both the
parties hereto. These terms and conditions shall be modified if
required with the consent of both the parties by way of supplementary
Agreement.

Now, therefore, this Agreement witnesseth as under:-

(1) Objectives of the Agreement:-

The main objectives of the Board behind this Agreement is to utilise
the available water to crops as per the requirement and to increase the
crop production and also to increase the farmers participation in
irrigation water management.

Rules, regulations, objectives and line of action for the Society will
be as under:—

(A) Minimum 2/3 of the area of concerned Minor/Water Course
No. under the Command Area shall be
under command of the Society or out of total beneficiaries 2/3 of the
beneficiaries shall be members of the Society.

(B) The Board will supply water at the Minor/Water Course
No. head and the same shall be distributed by
the Society to all members and non-members in proportion of their
crop area.

(C) FC, FD, Minor/Water Course No.
and structures thereon in the area of operation of the Society, shall
be required to be maintained by the Society.

(D) The Board will provide training to the beneficiaries in latest
technology in water management for economic and proper water use.

If any objective other than above is to be included by the Society,
then the Board will have no objection to include it. However, this
objective shall be got approved from the Board and if any objective
affects the main objectives, then it will stand cancelled automatically. This
provision needs to be made in the bye-laws of the Society.

(2) Right of Water:—

(a) In each season, water will be supplied to the Society at Minor/
Water Course head. (this will be regulated as per condition No. 2 (d)
below).

(b) The Board will supply water for the season generally from
1st November to 31st May as per the demands and as per availability
of water.

In case of failure of monsoon in the kharif season, the demand of the Society will be considered by the Board, but the Board will not be obliged for its sanction.

(c) Right is reserved to sanction/or by the reject extra demand of water after taking into consideration the actual availability of water. Extra water can be sanctioned but if due to any reason, the Board is not able to supply such extra water then the Board shall not be responsible for any losses of the beneficiaries.

(d) If in any part of the year, water available in the reservoir is less, then water supply will be proportionately curtailed. Intimation regarding the same will be given at the beginning of the season.

(e) If any member of the Society sells his land, his membership will be automatically cancelled and new owner thereof will, be eligible for membership of the Society.

(f) In each season, rotation programme of canal will be published and will be given to the Society 10 days prior to beginning of season.

(g) All the beneficiaries in the Command Area of the Society shall have right for membership of the Society. Each member shall have right for taking water in each season. If any member does not take water or take less water, then the Society shall have the right to distribute this water to other members.

(3) Use of water for Irrigation:—

Water will be supplied to the Society only for irrigation purpose. If water is required for processing industry, then the Society shall give separate demand for the same and will have to obtain a separate sanction for the same from the Board.

(a) If due to topographical limitation, water could not be supplied this also includes uncommand area of flow irrigation and if such area is to be included after land development, etc. in the Command Area (flow irrigation) of society for irrigation subsequent to the Agreement, water may be sanctioned for such extra area under the same terms and conditions so as to encourage utilisation of available irrigation potential. However, such sanction of water shall be restricted based on the availability.

(b) The society shall have the right to decide different water rates for non-member farmers and the members of the society and accordingly, the society shall have the right to recover water charges from non-member farmers. However, this rate shall not exceed 30% more than rate applicable to member of the Society.

(c) Water Rate and Charges:—

The Society shall collect water charges from the members of the society at the rate fixed by the Board, from time to time. The Society shall pay to the Board the water charges based on the cropping pattern as approved by the Board or as per actuals after keeping a margin of 10% pattern as working capital.

(4) Right of Members:—

In the Command Area of the Society, the land owner or the tenant may become a member of the Society. Members shall apply for his water demand to the Society in the specified form and the Society shall inform the decision on such demand within a month after consideration.

Each member shall have right to get water in each rotation from the Society for the season as per R. W. S. (rotational water supply) decided by the Society. Under any circumstances, the number of actual water using members () and area of a actual irrigation (Ha) on this Minor/ Water Course at the time of Agreement, shall not be reduced. If it is reduced, the Board reserves the right to stop the water supply.

(5) Recovery of water Charges:—

The Board will supply water to the society at the Minor/Water Course head as per as per sanction. For the water supplied, bill will be prepared based on the cropping pattern fixed by the Board after deduction 10% towards working capital of the Society.

Statement showing Recovery Dates

Sr.	Description	Date
(1)	Date of sending bill to the Society by the Board.	15th August
(2)	Date of payment of bill by the Society to the Board.	15th October
